SNOQUALMIE VALLEY HEALTH OPENING NEW MEDICAL AESTHETICS SERVICE ON SNOQUALMIE RIDGE

Snoqualmie, WA – Snoqualmie Valley Health is happy to announce it is adding a new service line. Snoqualmie Ridge Med Aesthetics & Wellness will celebrate its grand opening Wednesday, Feb. 8 with a ribbon cutting co-hosted with the SnoValley Chamber of Commerce at 4 p.m. An Open House will follow until 6 p.m.

Snoqualmie Med Aesthetics & Wellness will provide a host of skin treatments, including skin injections, fillers and peels. Dr. Tammy Moore, an SVH primary care provider and VP of Transformation and Strategic Growth, will oversee all treatments and is excited to add these services as part of a whole-body approach to Medical Aesthetics.

“We are thrilled to launch the SVH Medical Aesthetics and Wellness program for Snoqualmie,” Moore said. “Snoqualmie Valley Health has maintained a presence in this community for decades and leadership at SVH is committed to partnering with the residents of the Valley and beyond in their healthcare journey.

“We recognize that the integration of medical aesthetics into primary care may be new to some of our residents, but we believe this opportunity allows us to broaden our offerings in service to our patients. With a focus on wellness including skin care, skin rejuvenation, facial balancing, weight loss and aging, our medical aesthetics program partners with the primary care team to ensure whole-person, comprehensive care.

Medical aesthetics treatments include skin injections and fillers that help with scarring, signs of aging and sun damage. To complement these services, Snoqualmie Med Aesthetics and Wellness carries Alastin Skincare products.

The grand opening coincides with the celebration of the Snoqualmie Ridge Medical Clinic reopening after its recent remodel in January.

Snoqualmie Med Aesthetics and Wellness is located at 35020 SE Kinsey St., Suite A1, Snoqualmie WA 98065. For more information, visit www.snoqualmiemedaesthetics.com, or call 425-873-8123.
